Northeast Health Wangaratta & Benalla Health Intern Rotations 2024 (DRAFT as at 6 April 2023)

Pharmacy services are provided to wards in teams of pharmacist/technician/intern, who together look after all clinical, dispensing and operational services for the rostered ward/s.

During your rotations, you will be learning and working with the pharmacist rostered to those areas. You are also responsible for providing pharmacy services to your allocated ward/unit, namely Maternity, Paediatrics or Dialysis (under supervision). During Medical, Surgical & Intensive Care rotations, you will also participate in Antimicrobial Stewardship Rounds with the AMS/Medication Safety Pharmacist.

Working hours for Rotations on Dispensary/HITH, Surgical, Perioperative Clinic/Theatre and Intensive Care are 0800-1645

Usually the intern on Surgical rotation assists the Periop/Theatre pharmacist with controlled drug delivery to Omnicells in theatres on Fridays, from 0800).

Working hours for Rotations on Medical, Thomas Hogan Rehab, Emergency Department and Kerferd Unit are 0845-1730.

0845 each morning NHW Pharmacy holds "scrum" meeting, in the Pharmacy, to plan the day (Pharmacy staffing, patients for discharge). All staff are expected to attend.

Interns - find out who your go-to pharmacist is each day during morning scrum (first is the pharmacist your working with on rotation, then your preceptor, then your assigned mentor).

Pharmacy team meetings are held weekly, usually on Tuesdays, and the weekly Clinical Pharmacy Forum to discuss cases & participate in clinical education is on Fridays

See separate tutorial timetable for clinical & OTC topics.
