

Northeast Health Wangaratta & Benalla Health Intern Rotations 2025 (Draft 11 Apr 2024) (prepared by Susan Trevillian)																														
Pharmacy services are provided to wards in teams of pharmacist/technician/intern, who together look after all clinical, dispensing and operational services for the rostered ward/s.																														
During your rotations, you will be learning and working with the pharmacist rostered to those areas. You are also responsible for providing pharmacy services to your allocated ward/unit, namely Maternity/Special Care Nursery, Dialysis or Day Stay Unit (under supervision).																														
During Medical, Surgical & Intensive Care rotations, you will have the opportunity to participate in Antimicrobial Stewardship Rounds with the AMS/Medication Safety Pharmacist.																														
Working hours are 0800-1645 Mon-Fri, and most wards have a journey board meeting at 0800, so you are expected to be ready to participate in these at 0800. For Kerferd, working hours are 0830-1715																														
Usually the intern on Surgical rotation assists the Periop/Theatre pharmacist with controlled drug delivery to Omnicells in theatres (on Fridays, from 0800).																														
0930 each morning NHW Pharmacy holds "scrum" meeting, in the Pharmacy, to plan the day (Pharmacy staffing, patient)																														
Interns - ensure you know who your supervising pharmacist is each day at 0800 (first option is the pharmacist your working with on rotation, then next go-to person during the day is your preceptor, then 3rd your pharmacist mentor).																														
Pharmacy team meetings are held weekly, usually on Tuesdays, and the weekly Clinical Pharmacy Forum to discuss cases & participate in clinical education is on Thursdays. Attendance and participation is expected																														
See separate tutorial timetable for clinical & OTC tutorial topics.																														
Northern & Northeast Vic Hospital Interns & Preceptors meet throughout the year via Teams, for case based discussions, OTC revision & exam prep (includes 10 NHW, Benalla, Albury/Wodonga, Goulburn Valley & Echuca interns, and their preceptors).																														
NHW Clinical Rotations: DISP/HITH, ONC, MED, SURG, THTR/PAED/POCC, ICU, ED, THO, KERF. Non-rotational Pharmacist roles = AMS/Med Safety (full time), Education & Research Unit Pharmacist (~1 day/week), DoP & DDoP																														
Interns' Areas of Responsibility: Maternity/Special Care Nursery, Dialysis, Day Stay Unit - this includes operational (inventory management, imprest, dispensing) as well as clinical (medication history, reconciliation, review, medication counselling etc)
